Fluid Dynamics To Highlight Its dynaBLEND™ System at AWWA/ACE Show

Lansdale, PA — March 25, 2011 — Fluid Dynamics, a leading manufacturer of liquid and dry polymer blending systems and a division of Neptune™ Chemical Pump Co., announced that it will be exhibiting in Booth 744 at the American Water Works Association Annual Conference & Exposition (AWWA/ACE). This year's show will be held from June 12-16 at the Walter E. Washington Convention Center in Washington, D.C.

Fluid Dynamics is a global leader in the design and manufacture of polymer-blending systems for the water and wastewater industries, specializing in non-mechanical polymer-blending equipment. In 2004, Fluid Dynamics became a division of Neptune Chemical Pump Co. Neptune will also be exhibiting in Booth 744 showcasing its full line of metering pumps and chemical feed accessories.

Fluid Dynamics will demonstrate the efficient, high performance dynaBLEND™ Liquid Polymer Activation/Dilution/Feed Systems at WEFTEC. The patented dynaBLEND technology provides superior performance in activating and feeding liquid polymers for water and wastewater treatment because it is designed to effectively activate all types of liquid polymers. The dynaBLEND's non-mechanical mixing chamber delivers an unequalled degree of reliability when compared to mechanical technologies. The system also features an injection check valve designed for ease of disassembly, inspection and cleaning which eliminates a maintenance issue common to other systems.

For more information on Fluid Dynamics and its dynaBLEND™ Liquid Polymer Activation/Dilution/Feed System, please visit www.dynablend.com.

Neptune™ Chemical Pump Co. is an operating company within Dover Corporation's Pump Solutions Group (PSG™). Formed by its parent company Dover Corporation (DOV: NYSE) in 2008, PSG combines the following operating companies into a cohesive pump organization with a broad array of pump technologies: Wilden®, the world's largest manufacturer of AODD pumps; Blackmer®, the largest global manufacturer of sliding vane pumps; Mouvex®, a manufacturer of eccentric disc pumps; Griswold™, an ANSI centrifugal pump manufacturer; Almatec®, a premier manufacturer of air-operated diaphragm pumps specializing in plastic pumps with solid housings; and Neptune™, a producer of chemical metering pumps and chemical feed systems.
