Fluid Dynamics To Highlight dynaBLEND™ System in Booth 2719 at WEFTEC 2011

North Wales, PA — August 12, 2011 — Fluid Dynamics, a leading manufacturer of liquid and dry polymer blending systems and a division of Neptune™ Chemical Pump Co., announced that it will be exhibiting in Booth 2719 at the upcoming WEFTEC 2011 tradeshow. This year's show will be held from Oct. 17-19 at the Los Angeles Convention Center in Los Angeles, CA.

Fluid Dynamics is a global leader in the design and manufacture of polymer-blending systems for the water and wastewater industries, specializing in non-mechanical polymer-blending equipment. In 2004, Fluid Dynamics was purchased by and became a division of Neptune Chemical Pump Co. Neptune will also be in attendance at the WEFTEC Show, exhibiting its products in Booth 2719.

Fluid Dynamics is planning to highlight its standard-setting dynaBLEND™ Liquid Polymer Dilution/Feed System at WEFTEC. The patented dynaBLEND technology eases the task of blending liquid polymers for wastewater processes because it has been designed to effectively activate all types of liquid polymers. The dynaBLEND's non-mechanical mixing chamber also delivers an unequalled degree of reliability when compared to other mechanical technologies. The system also features an injection check valve that has been designed for easy disassembly and inspection in mind, which eliminates many of the maintenance concerns that affect other systems.

For more information on Fluid Dynamics and its dynaBLEND™ Liquid Polymer Dilution/Feed System, please visit www.dynablend.com. Neptune Chemical Pump is an operating company within Pump Solutions Group (PSG™). For more information on PSG, please go to www.pumpsg.com.

Neptune™ Chemical Pump Co. is an operating company within Dover Corporation's Pump Solutions Group (PSG™). Formed by its parent company Dover Corporation (DOV: NYSE) in 2008, PSG combines the following operating companies into a cohesive pump organization with a broad array of pump technologies: Wilden®, the world's largest manufacturer of AODD pumps; Blackmer®, the largest global manufacturer of sliding vane pumps; Mouvex®, a manufacturer of eccentric disc pumps; Griswold™, an ANSI centrifugal pump manufacturer; Almatec®, a premier manufacturer of air-operated diaphragm pumps specializing in plastic pumps with solid housings; and Neptune™, a producer of chemical metering pumps and chemical feed systems.
