

Blackmer®

Where Innovation Flows

Integrated Unit Assemblies | Drop-in pumping solutions ready for immediate installation

Blackmer® Integrated Unit Assemblies are pre-engineered, pre-designed and pre-configured pumping solutions developed to save time and money while simplifying the ordering process.

Ready for immediate drop-in installation, these out-of-the-box pump assemblies come fully connected and aligned on a baseplate with the motor, gearbox, pump and coupling safety covers. All that's left is to connect the piping to the pump and hook up the electricity to the motor.

Integrated Unit Assemblies are available for Blackmer Sliding Vane Pumps in 1.5" to 10" sizes for the following series:

- NP
- SNP
- ML
- HXL
- CRL
- LGL
- SGL
- XL
- XLW
- X
- SX

Blackmer HXL8 Sliding Vane Pump is part of this assembly.

Integrated Unit Assemblies | Pre-engineered, pre-designed and pre-configured drop-in pumping solutions

FEATURES & BENEFITS

- Pre-engineered, pre-designed and pre-configured
- Ready for immediate drop-in installation
- No alignment required
- Easy to quote
