Pump Models: STX3-DEF, STX1220A-DEF, STX2A-DEF and SX1B-DEF

Applicable Standard: ISO 22241-3:2017
Diesel engines - Nox reduction agent AUS 32
Part 3: Handling, transportation and storage

This certifies that the Blackmer models listed above are in compliance with the ISO standard listed above; specifically, section 4.1.2 - Recommended Materials and are rinsed with deionized water in accordance with section 4.3 - Cleanness of surfaces in contact with AUS 32. It is the end user's responsibility to perform final rinsing before putting the unit in service.
